2012 Science Express Camp – A Kickoff of Biomedical Engineering

The Camp is organized by the Macau Society of Biomedical Engineering and the IEEE-EMB Hong Kong - Macau Joint Chapter, and co-organized by the Biomedical Engineering Laboratory of University of Macau and the Communications Museum. It will wrap up the series of summer activities for the month of July this year. The objective is to inform students on the development and prospects of Biomedical Engineering to expand their perspective of their future studies and choice of elective subjects. The 4-day summer camp targets students promoting to Form 4 or above. In addition to the seminars and workshops to be held in Macau, there will be a tour going to the science park in Zhuhai in order to visit the production lines and enterprises of medical equipment. For details, please refer to the Museum website <http://macao.communications.museum>.

Audience:	Form 4 students of above	Fees:	MOP 500.00 / person
Participants:	30 persons	Registration:	From now till 15/7/2012 . First-come-first served.
