## 2014MIECF – Request for Quotation & Proposal

For the past six years, the international community of government leaders, businesses, professionals, financial institutions, investors and non-government organizations have converged in Macao to actively participate in the collective effort to address environmental issues of common global concern.

The Macao International Environmental Co-operation Forum & Exhibition (MIECF), an initiative by the Macao SAR Government, is contributing to China's efforts to achieve specific objectives for a low carbon society, as well as to raise public awareness and improve conditions for humanity.

Since its launch in 2008 through to 2013, MIECF has grown from strength to strength and is regarded as a success by delegates, exhibitors and the international community. MIECF will return for its seventh edition in 2014 from March 27 to March 29, at the Venetian Macao-Resort-Hotel.
